

Course Directive

ID511001: Programming 2

Semester One, 2024

Course Information

Level:	5
Credits:	15
Prerequisite:	ID510001: Programming 1
Rōpū Mangu Timetable:	Monday 3.00 PM D207 and Wednesday 1.00 PM D105b

Teaching Staff

Name:	Rachel Trounson	Grayson Orr
Position:	Senior Lecturer	Senior Lecturer and Second/Third-Year Coordinator
Office Location:	D316a	D309
Email Address	rachel.trounson@op.ac.nz	grayson.orr@op.ac.nz

Course Dates

Term 1:	Monday 26 February - Friday 12 April
Mid Semester Break:	Monday 15 April - Friday 26 April
Term 2:	Monday 29 April - Thursday 27 June

Public Holidays and Anniversary Days

A list of public holidays and anniversary days can be found here - <https://www.op.ac.nz/students/importantdates>

Aims

To enable learners to build simple object-oriented (OO) applications and to identify situations that are most appropriate for OO implementation.

Learning Outcome

At the successful completion of this course, learners will be able to:

1. Build interactive, event-driven GUI applications using pre-built components.
2. Declare and implement user-defined classes using encapsulation, inheritance and polymorphism.

Assessments

Assessment	Weighting	Due Date	Learning Outcomes
Project 1	25%	21-06-2024 (Friday at 4.59 PM)	1 and 2
Project 2	35%	03-05-2024 (Friday at 4.59 PM)	1 and 2
Theory Examination	30%	26-06-2024 (Wednesday at 3.00 PM)	1 and 2
Classroom Tasks	10%	03-05-2024 (Friday at 4.59 PM)	1 and 2

Provisional Schedule

Week	Date Starting	Topics
1/Tahi	26-02-2024	GitHub and C#
2/Rua	04-03-2024	Lists and LINQ
3/Toru	11-03-2024	Windows Forms Application
4/Whā	18-03-2024	Classes, Objects and Encapsulation
5/Rima	25-03-2024	Inheritance and Polymorphism
6/Ono	01-04-2024	Interfaces and Enumerations
7/Whitu	08-04-2024	Debugging and Unit Testing
Mid Term Break		
8/Waru	29-04-2024	Assessment Work
9/Iwa	06-05-2024	Timer Control, Graphics Class and SoundPlayer Class
10/Tekau	13-05-2024	More Graphics Class
11/Tekau mā tahi	20-05-2024	Key Events
12/Tekau mā rua	27-05-2024	Assessment Work
13/Tekau mā toru	03-06-2024	Assessment Work
14/Tekau mā whā	10-06-2024	Assessment Work
15/Tekau mā rima	17-06-2024	Theory Examination Preparation
16/Tekau mā ono	24-06-2024	Theory Examination

Resources

Software

This paper will be taught using **Microsoft Visual Studio**. An installer for **Microsoft Visual Studio** is available - <https://visualstudio.microsoft.com/downloads>. Please refer any problems with downloads or installers to **Rob Broadley** in D205a.

Readings

No textbook is required for this course. URLs to useful resources will be provided in the lecture notes.

Course Requirements and Expectations

Learning Hours

This course requires **150 hours** of learning. This time includes **60 hours** directed learning hours and **90** self-directed learning hours.

Criteria for Passing

To pass this paper, you **must** achieve a cumulative pass mark of **50%** over all assessments. There are no reassessments or resits.

Attendance

- Learners are expected to attend all classes, including lectures and labs.
- If you cannot attend for a few days for any reason, contact the course.

Communication

Microsoft Outlook/Teams are the official communication channels for this course. It is your responsibility to regularly check **Microsoft Outlook/Teams** and [GitHub](#) for important course material, including changes to class scheduling or assessment details. Not checking will not be accepted as an excuse.

Snow Days/Polytechnic Closure

In the event **Otago Polytechnic | Te Pūkenga** is closed or has a delayed opening because of snow or bad weather, you should not attempt to attend class if it is unsafe to do so. It is possible that the teaching staff will not be able to attend either, so classes will not physically be meeting. However, this does not become a holiday. Rather, the course material will be made available on [GitHub](#) for classes affected by the closure. You are responsible for any course material presented in this manner. Information about closure will be posted on the **Otago Polytechnic | Te Pūkenga Facebook** page <https://www.facebook.com/OtagoPoly>.

Group Work and Originality

Learners in the **Bachelor of Information Technology** programme are expected to hand in original work. Learners are encouraged to discuss assessments with their fellow learners, however, all assessments are to be completed as individual works unless group work is explicitly required (i.e. if it doesn't say it is group work then it is not group work - even if a group consultation was involved). Failure to submit your original work will be treated as plagiarism.

ChatGPT

Learning to use **Artificial Intelligence** tools like **ChatGPT** is an important skill. While **ChatGPT** is a powerful tool, you **must** be aware of the following:

- If you provide **ChatGPT** with a prompt that is not refined enough, it may generate a not-so-useful response
- Do not trust **ChatGPT's** responses blindly. You **must** still use your judgement and may need to do additional research to determine if the response is correct
- Acknowledge that you are using **ChatGPT**. In the assessment's repository **README.md** file, please include what prompt(s) you provided to **ChatGPT** and how you used the response(s) to help you with your work

Referencing

Appropriate referencing is required for all work. Referencing standards will be specified by the teaching staff.

Plagiarism

Plagiarism is submitting someone else's work as your own. Plagiarism offences are taken seriously and an assessment that has been plagiarised may be awarded a zero mark. A definition of plagiarism is in the Student Handbook, available online or at the school office.

Submission Requirements

All assessments are to be submitted by the time, date, and method given when the assessment is issued. Failure to meet all requirements will result in a penalty of up to **10%** per day (including weekends).

Extensions

Familiarise yourself with the assessment due dates. Extensions will **only** be granted if you are unable to complete the assessment by the due date because of **unforeseen circumstances outside your control**. The length of the extension granted will depend on the circumstances and **must** be negotiated with the course lecturer before the assessment due date. A medical certificate or support letter may be needed. Extensions will not be granted for poor time management or pressure of other assessments.

Impairment

In case of sickness contact the teaching staff or **Head of Information Technology (Michael Holtz)** as soon as possible, preferably before the assessment is due. The policy regarding the granting of a mark that considers impaired performance requires a medical certificate and a medical practitioner's signature on a form. You may refer to the guide on impaired performance on the student handbook.

Appeals

If you are concerned about any aspect of your assessment, approach the teaching staff in the first instance. We support an open-door policy and aim to resolve issues promptly. Further support is available from the **Head of Information Technology (Michael Holtz)** and **First-Year Coordinator (Elise Allen)**. **Otago Polytechnic | Te Pūkenga** has a formal process for academic appeals if necessary.

Other Documents

Regulatory documents relating to this course can be found on the **Otago Polytechnic | Te Pūkenga** website.
